Welcome to the **ONE.618 omnee.m** Active Full-range Hi-Fi Speaker Quick User Guide. This concise guide offers clear instructions to swiftly set up and enjoy your speaker.

While we recommend reviewing the full User Guide for a complete understanding, if you're eager to use your speaker promptly, let's dive in!

Speaker Overview

The **ONE.618 omnee.m** is an advanced all-in-one wireless concrete speaker. Features built-in amplification and versatile streaming capabilities.

Getting Started

- Carefully unpack the speaker, preserving packaging for future transportation.
- Assemble the optional speaker stand following provided instructions.
- Place the speaker on the stand, aligning legs and rubber feet.

Speaker Placement

- Choose a central location for balanced sound distribution.
- Maintain around 2 meters of distance from walls to minimize sound reflections.
- Position the speaker at or slightly above ear level when seated.

Charging the Battery

- Fully charge the speaker's battery before initial use.
- Use the provided charging options: Wall Adapter, USB Charging Adapter, Car Charging Adapter, or Solar Panel Charging Input.
- You can use your speaker while charging it.

Initial Setup

- Download the "4STREAM" app from your device's app store, or scan QR codes for quick access.

Apple App Store

Apple iOS

Google Play Store

Android Google Play

- Switch on the speaker using the Main Power Switch.
- Launch the app and follow the on-screen instructions to connect the speaker to your Wi-Fi network.
- Add the speaker to your app and select the appropriate network.
- Do not interrupt or turn off the speaker during a firmware update (updates can begin automatically once an internet connection is established).

Controls and Functions

- Use the Base Touch Interface to control music sources, volume, playback, and check the battery level.
- For your convenience, utilize the included IR Remote Control or the Speaker App.
- Adjust the enclosure illumination using the Enclosure Illumination Touch Button.

Connections & Inputs

- Use a Bluetooth connection to pair with your devices.
- Use AirPlay for wireless streaming from your Apple devices.
- Connect via various wired input options for versatile compatibility.

Maintenance and Safety

- Wipe the speaker's exterior gently with a damp, soft cloth to keep it clean.
- Avoid exposure to liquids or extreme temperatures.

Additional Tips

- Find an extensive guide at one618.eu for more insights.
- Experiment with speaker placement for an optimal audio experience.

Important Notes

- Pay attention to the relatively heavy weight of the speaker (25kg), and be sure to place it on a stable surface.
- When positioning the speaker on the stand, align speaker legs to stand base.

Troubleshooting

- Explore the full User Guide for more insights.
- Should any issues arise, consult the Troubleshooting section in the online guide.
- Reach out to our customer support for further assistance.

By following these steps, you'll be all set to start using your omnee.m speaker. Take time to explore its features, fine-tune your settings, and elevate your music experience. For more detailed information, refer to the comprehensive full version of User Guide.
